

Bellevue – Opening More than Just Doors - When Quality, Design & Style matters, consider Olivari By Bellevue

Innovation, Style, Quality are all terms that are synonymous with the Bellevue & Olivari Brand. For over 21 years Bellevue has been supplying Architectural fittings for all project types. Today we are proud to present our new 2005 range of door hardware from Olivari of Italy and our Spring Hinge Range from Justor of Spain. These products represent the best in style, design, durability and functionality at an affordable & realistic price.

The 2005 Range of Door Handles from Olivari consist of 10 new models including 4 new knob Models. All made from solid brass, suitable for internal and external doors, compatible with Australian and European Locks and Fire rated. Available in a range of finishes and stocked locally. These new designs represent the latest in style & form from Europe. Combined with Olivari's almost 100 years of manufacturing experience; Olivari by Bellevue is modern design, quality & elegance that can't be overlooked.

The Justor Spring Hinge Range. Made out of Aluminium or Stainless Steel, the Single Action or Double Action Spring Hinge is ideal for all internal & external applications. It has multiple tension settings for slow to quick door return & requires no maintenance. The Single action hinge is used for perimeter doors, gates, front doors. Where ever a door needs to close by itself including perimeter doors leading to Swimming Pools. The Double action is ideal for any door that swings both ways that needs to be returned to a centre position: i.e. kitchen & restaurant doors, galley doors, shop front doors, change room doors, bar doors etc. Used currently within Hospitals, Commensal buildings, Apartments and Residential environments, the Justor Range of Spring Hinges are an ideal alternative to door closers.
