OLIVARI BY BELLEVUE, OPENING AUSTRALIAN DOORS TO EUROPEAN DESIGN, ELEGANCE & QUALITY

Taking Architecture by the hand. The handle can be seen as the most concentrated proving ground for the major issues of architecture. It is an indispensable object, that can thwart or facilitate everyday utilisation of spaces, but it is also a small sculpture, a point of visual attraction on surfaces that are all too often anonymous. Opening or closing a door means performing a symbolic act: taking architecture by the hand.

Bellevue began its relationship with Olivari over 21 years ago with a simple philosophy, "Design is Inspiration". Today the name Olivari & Bellevue is synonymous with leading edge inspirational design, high quality of manufacture, customer service and affordability. To date Bellevue have supplied the Olivari range of co-ordinated Door handles all over Australia & New Zealand for countless projects from new homes & residential renovations through

to apartments, office buildings, large commercial projects & holiday resorts.

With designs from such notable design personalities as F.A. Porsche, Penta Associati, Alessandro Mendini, Vico Magistretti & Sergio Asti, just to name a few, its no wonder the leading designers of Australia and New Zealand select Olivari from Bellevue for their projects.

Design is true inspiration, with over 65 different designs to choose from, we are sure you will find the right design for your next project.

Be inspired. Consider Olivari by Bellevue.
